

## 57 VARIETIES OF 'DRUNKS' HELD BY POLICE IN MONTH

Fifty-seven varieties of drunk and disorderly cases appeared before the city police department during the month of October, according to the report for the past 31 days just made public. The 57 drunk and disorderly cases were more than the total number of those who paid fines into the municipal court or served time in the city jail during that month.

Following is the complete report of the chief of police for October:

Arrests for speeding, 8; open muffs, 2; forgery, 2; selling intoxicating liquor, 2; transporting intoxicating liquor, 1; drunk and disorderly, 57; investigation, 67; vagrancy, 26; violation of ordinance 312 (traffic), 4; of ordinance 340 (narcotic), 4; of ordinance 341, 1; of ordinance 342 (gambling), 2; of ordinance 157

(marijuana), 1; of ordinance 99 (milk), 4; petty larceny, 1; cattle theft, 1; murder, 1; detained as witness, 1; carrying concealed weapons, 2; prostitution, 7; selling phony jewelry, 2; disregarding officers' orders, 1; driving auto in drunken condition, 2; desertion U. S. military, 3; disturbing the peace, 9; breaking glass in street, 1; assault, 2; auto theft, 1; indecent exposure, 1; sweeping sidewalk after hours, 1; nights' lodging, 4; illness, 1; held for department of justice, 4; transferred to county, 13; transferred to federal, 8; transferred to juvenile, 2; fines paid, 35; bail forfeited, 27; prisoners served time, 21; meals served prisoners, 194; amount of property reported stolen, \$227.59; amount of property recovered, \$209.59; amount received from impounded stock, \$9.00.

## GRAZING SECTIONS IN GOOD CONDITION

Somewhat more than the usual amount of wind has taken up the moisture precipitated in the last storm and grass on the ranges is quite dry. As it had fully matured, however, it suffered no loss in nutritive quality. Even where rain was heavy there was very little run off owing to the unusually dry condition of the soil. With the exception of the Grand Canyon section where

both range and cattle are reported poor, conditions on major grazing sections are excellent. Shipments of lambs and cattle continue from many parts of the district. Seligman is reporting a shipment of 57 cars feeder cattle on the 27th, indicating a cool and entire absence of rain and abundant sunshine have made the week favorable for all farm activities. The shipment from the Salt River valley of a quarter hundred cars of citrus fruit has marked the beginning of that industry and is a pleasing contrast to what might have resulted had the railway strike materialized. Olive and cotton picking made excellent progress and every day's delay in the coming of frost will add considerably to the product of both crops. In the Yuma section the weather was favorable for the harvesting of cotton, maize and alfalfa; oranges are showing a decided tint of gold but few have been marketed as yet. Weather bureau reports from the northern counties indicate that many potatoes are still in the ground as they were not matured at time of the last storm; ten days or two weeks will be required to complete digging. Killing frost at Flagstaff Oct. 13 was the latest date of record for that phenomenon. No run-off is reported from the last rain in that section and general farming conditions are good.

**CONCEIT**  
"That fellow is conceited, isn't he?" "I'll say so. He ever expects the discharge of his duties to make noise that is heard around the world."—Florida Times-Union.

## Florence Diversion Dam Is Recognized as Part of San Carlos Irrigation Project

About the time of the unemployment conference it was suggested by citizens of Arizona under the proposed San Carlos storage dam and by Governor Campbell and others that the prosecution of work on the main project could be an excellent unit for the relief of unemployment. The matter was taken up with Arizona's congressional delegation with the result that whether that object will be attained, recognition has been secured of the fact that the project is already under way in the construction of the diversion dam as a part of the storage dam project, which is therefore regarded as definitely decided upon. The following correspondence on the subject followed:

Department of the Interior  
Office of Indian Affairs  
Washington, D. C.  
Oct. 18, 1921.

Otto Mallory,  
Public Works Committee,  
U. S. Department of Commerce,  
Washington, D. C.

Dear Sir:

Reference is made to your communication of Oct. 14, 1921, to Senator Ashurst concerning the San Carlos irrigation project, wherein you stated that the project already being under construction the public works committee is not authorized by the report of the conference to list it.

The reclamation service has recently made investigations in connection with this project which are summarized in a report by a board of engineers of Feb. 21, 1921, in the following statement:

"The irrigation plan of the San Carlos project contemplates the construction of a storage reservoir on the Gila river at San Carlos, of a diversion dam on the Gila river near Florence, a gravity canal from this diversion dam to a point near Casa Grande with feed laterals therefrom for Indian lands to the Little Gila river at the east end of the Gila River Indian reservation, a lateral canal from this main canal for the white lands, a diversion dam on the Gila river near Sacaton with a canal and lateral system therefrom for the Indian lands, a power plant at the reservoir with a transmission line and distributaries to pumping plants on the project, and pumping plants for ground water development throughout the project area."

A part of the general scheme herein outlined is already in process of construction. Appropriations in the sum of \$250,000 for the construction of the diversion dam on the Gila river near Florence have been made and the work of this dam is now nearing completion. These appropriations were provided for in the acts of May 18, 1916 (39 Stat. L. 123), \$75,000; March 2, 1917 (40 Stat. L. 967), \$100,000; and Feb. 14, 1920 (41 Stat. L. 408), \$75,000. The act of March 2, 1917, also appropriated \$75,000 to be expended for the construction of the canal in connection with this diversion dam. The act of May 23, 1918 (40 Stat. L. 581), appropriated an additional \$50,000 for this purpose and the appropriation act for the present fiscal year, approved March 3, 1921, (Public 259), carries another \$75,000 for this purpose, making a total of \$250,000.

Appropriations in the sum of \$300,000 to be used in connection with the construction of the dam with a bridge superstructure and the necessary controlling works for diverting water from the Gila river for the irrigation of Indian lands on the Gila River Indian reservation, Arizona, having been previously approved. The act of Feb. 14, 1920 (41 Stat. L. 417), increased the sum to be expended for this purpose from \$250,000 to said amount. Certain machinery, etc., which were used in connection with the construction of the diversion dam across the Gila river near Florence are now in the process of being transferred to be used in the construction of the Sacaton dam. Actual work thereon will be begun in the near future.

These two diversion dams, with their controlling works, are to be used in connection with the natural flow of the Gila river, while the San Carlos project contemplates the construction of a storage reservoir on the Gila river at San Carlos, Arizona. This storage reservoir will be constructed by the reclamation service, but as outlined in the above quotation, it will be part of the general scheme of irrigation. It no doubt will be necessary in many instances to obtain water for irrigation purposes from the storage reservoir as the natural flow of the Gila river is inadequate to supply at all times the demands for the irrigation of the lands under the system.

It will be seen, therefore, while actual work on the construction of the San Carlos storage reservoir has not been started by the reclamation service for the reason that appropriations have not been heretofore made, nevertheless, in view of the surrounding circumstances, as herein set forth, it might be possible to consider the whole project as one general scheme and, therefore, have it listed by the public works committee.

Anything that can be done in this matter will be greatly appreciated, and I feel that great benefit will be derived if the initial appropriation of \$4,000,000 required by the United States reclamation service for work on the San Carlos reservoir site is made, as it will, in addition to being beneficial to the general irrigation scheme in Arizona, give employment as set out in the letter dated Oct. 7, 1921, addressed to you by the acting director of the reclamation service, to from three to four thousand men for the rest of the fiscal year.

I am sending a copy of this letter to Senator H. F. Ashurst.

Sincerely yours,  
CHAS. F. BURKE,  
Commissioner,  
The President's Conference on Unemployment,  
Department of Commerce,  
Washington.

Oct. 24, 1921.  
Hon. Henry F. Ashurst, Senator,  
United States Senate,  
Washington, D. C.

My Dear Senator Ashurst:

The president's unemployment conference authorized the public works committee to add to its first list of reclamation projects under way any others which might be found to come under this class. The San Carlos project concerning which you have introduced a bill, has been undertaken by the Indian service and partly developed, and is now ready for further development by the reclamation service.

## 19 NEW RESIDENCES VALUED AT \$43,000 BEGUN IN OCTOBER

Activities in the building lines here concentrated on erecting new homes last month. Permits for 19 residence buildings at a total valuation of \$42,775 and for two apartment buildings totaling \$11,500 in valuation were issued by the city building inspector during October.

Although the total valuation of permits issued by the department last month only totaled \$55,914 City Building Inspector G. D. Martin explained that the figure is very good when consideration is given the fact that no big public buildings of any kind were started last month and that the greater part of the amount indicated is being expended for the extension of the residential district.

The report follows:

Description	No. of Permits	Valuation
Residence, repairs, alterations and additions	19	\$42,775
Business, repairs, alterations and additions	3	4,250
Private garages	12	5,835
<b>Total</b>	<b>34</b>	<b>\$52,860</b>

## BOXING PERMIT IS GIVEN LEGION POST

Frank Luke Post No. 1 of the American Legion was granted permission by the city commission yesterday to again conduct boxing and wrestling matches within the city limits, while an application from Phoenix Post No. 6, the Central War Veterans for a similar permit was dismissed.

In granting the one permit and refusing the other the city commission acted upon the recommendation of the newly organized boxing commission. A representative of the local post of the American Legion told the commissioners that if the permit should be granted the organization would stand responsible for the athletic programs presented in Phoenix. He stated that it was the desire of the Frank Luke post to encourage clean sport and to absolutely eliminate any exhibitions of a questionable character.

Last steps toward presenting a formal petition asking financial assistance of the Carnegie corporation for enlarging the local library building were taken by the city commission yesterday when a resolution was adopted urging favorable consideration of the request.

In its resolution the city commission declared action taken by the library board in the preparation of plans for an enlarged library building with an open air auditorium, for presentation to the Carnegie corporation of New York with the request for an appropriation by the corporation.

## COMMISSION URGES LIBRARY ADDITION

Last steps toward presenting a formal petition asking financial assistance of the Carnegie corporation for enlarging the local library building were taken by the city commission yesterday when a resolution was adopted urging favorable consideration of the request.

In its resolution the city commission declared action taken by the library board in the preparation of plans for an enlarged library building with an open air auditorium, for presentation to the Carnegie corporation of New York with the request for an appropriation by the corporation.

## BAR ASSOCIATION DINNER TONIGHT

Justice E. J. Flanagan will be the guest of honor at a dinner given by the Maricopa County Bar Association at the Hotel Adams on Thursday evening, November 10. Judge Ernest W. Lewis, president of the association, will preside at the affair to which invitations have been extended to Chief Justice Rose, Justice McAllister, superior court judges throughout the state and members of the bar.

Justice Flanagan was appointed by Governor Campbell last August to fill the unexpired term of Justice A. C. Baker. The affair given in his honor will be marked by numerous addresses by leading lawyers of the city.

## The Central Arizona Light & Power Company showed me how to save. Joe I get regular dividend checks now and in buying more stock.

HOME OWNERSHIP OF THE ELECTRIC AND GAS UTILITY WHAT IT MEANS TO YOU AND TO US

HOW WE PROFIT:

The home ownership plan of the Central Arizona Light and Power Company frankly aims at a closer relationship between the customer and the public utility. When several thousand partners in Phoenix are financially interested in our business by virtue of their ownership of our 8% preferred stock, there must be created a healthy condition in the industry. We would rather have five of our HOME CUSTOMERS buy one share each than have one out-of-town investor buy one hundred shares.

HOW YOU PROFIT:

A safe and profitable investment is secured. It pays regular wages on your savings. Saving becomes a habit with you, induced by substantial interest, accumulating on your payments as made. The regular dividends every three months on the purchased stock will yield you nearly 9% return on your investment.

Our INVESTMENT DEPARTMENT will send you many interesting facts on the Power Company. Ask for our leaflet—"The Road to Financial Independence." Send for them today.
